

I climb some ladders to a better place,  
the better the place, the happier my face

I see more trees, and the trees bring  
bees, and the bees bring breezes

Trees are important, but on platform 1,  
I see none, on platform 2, I see a few,  
on platform 3, I see many

I go from piles of mushes to over-  
grown bushes, I go from bug spray,  
to bug-yayu
